

Verana Vision Test App Instructions

Important notes:

- If child/adult patient wears glasses, please check vision with glasses
- Hold the phone or device 14 inches from eyes when testing
- Check the vision in each eye separately (cover left eye when checking the right eye vision and cover right eye when checking the left eye vision)
- Check test results under Profile and then select Test Results

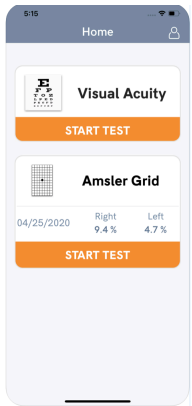

Step 1 Download the app

Step 2 Open the app

Step 3 Select Visual Acuity and START TEST

Step 4 Record results
