

DEPTH PERCEPTION TEST

To perform this test you will use your finger and green big green circle below.
The pictures on the left show what it should look like

Step 1: Focus on the circle

To begin, hold your finger in front of the circle, between your eyes and the screen, Focus your eyes on the circle. You should see the circle clearly in the middle between two images of your finger. The finger(s) will appear semi-transparent and slightly blurry.

Step 2: Focus on your finger

Next, focus on your finger. The two previous images should merge together into one finger while the circle splits into two.

2 fingers when focusing on circle YES NO

2 circles when focusing on finger YES NO

VISION TEST

Select Near Vision Card (Letters, Numbers, X/O, E-direction, C-direction, Pictures)

If child/adult patient wears glasses, please check vision with glasses

Hold the phone or device 14 inches from eyes when testing

Check the vision in each eye separately

cover left eye when checking the right eye

cover right eye when checking the left eye

Record the smallest line read with right eye (gets more than half of the characters correct on that line)

Record the smallest line read with left eye (gets more than half of the characters correct on that line)
