

DEPTH PERCEPTION TEST

To perform this test you will use your finger and green big green circle below.
The pictures on the left show what it should look like

Step 1: Focus on the circle

To begin, hold your finger in front of the circle, between your eyes and the screen, Focus your eyes on the circle. You should see the circle clearly in the middle between two images of your finger. The finger(s) will appear semi-transparent and slightly blurry.

Step 2: Focus on your finger

Next, focus on your finger. The two previous images should merge together into one finger while the circle splits into two.

2 fingers when focusing on circle YES NO
